Kanchi Shri Krishna College of arts and science has a methodical format for curriculum delivery and testament. Each and every department contributes to the preparation of time table and academic planning. The academic planning for all areas on curriculum delivery and time table are accomplished and executed by all departments based on academic calendar which is done before the academic year started. Distribution process of workload is done in advance by every department and conformation of receiving workload and the time table is monitored by separate committee. All the staff members are involved in scheduling academic, co-curricular and extra-curricular events to enrich the learning process. All the events and activities which are done by all departments those activities are uploaded to the college website and documented in department activity report. Also the special feature of our institution is that all teachers are having individual log book to record their daily activities and lectures. It is very useful to monitoring syllabus completion. Every department conduct personality development program to improve students individual quality and making the experience of approaching the society. Our college yearly magazine KRISHNAM released successfully in beginning of the academic year. The process of releasing KRISHNAM college magazine is very innovative to the students. It holds academic calendar, previous year activities from all departments, sports activities, NSS activities and mainly it glittering with the articles and creation documentations of students. College thus ensures gearing every student for effective transaction of knowledge. Staff members are encouraged to attend orientation to various colleges, refresher programs and national/international conferences, seminars/workshops. We believe the learner centric approaches and implemented too. We have remedial teaching and bridge courses to keep them evolve with the syllabus and additional credit program for the advanced learners. Though syllabus is prescribed by the university, teachers use innovative method for better teaching. Every class room is maintained with the spacious seating arrangement, furniture and black boards. Every department adapts various innovative methods to facilitate the process of teaching and learning. The institution has a well maintained library with the latest books required for the curriculum delivery. Teachers coordinate with the librarian by giving the requirements and ensuring that the list of books needed for their subjects that are easily available for the students. We are adding Journal section in the library too. Students are motivated to visit the library at any time with the proper permission by the class teacher.

Feedback Obtained
The process of development of our institution is based on a well designed feedback system. Our institution has adopted 360 degree feedback process which accommodates all the stakeholders. We strictly follow the mechanism of feedback system. i.e. Collection, analysis and action. The process of first one is systematic collection of feedback from students, alumni, parents, employers and teachers. Feedback collection is done by a well structured questionnaire with standard rating scales for objective analysis. The student's feedback takes

place a vital role in teaching and learning process. It helps the mentor to recognize how the students understand his/her subject being taught. This is the significant way that the teacher can get betterment in his/her teaching methodology that will finally benefit the students. The collection and analysis of feedback from different stakeholders assist the institution to understand the need of society and what other stakeholder foresee from the institute. Feedback on curriculum based method is collected from students by circulating the feedback forms. The collection of statistical data is handed over to the feedback committee. Further suggestions are incorporated by departments and college council. Feedback on curriculum outcome collected from parents when they attended the meeting arranged by the feedback committee with the direction of our institution. Further processing of feedback is carried out similar to that of the student's feedback. Alumni feedback is collected during the alumni association meeting and handed to the feedback committee for further statistical analysis of the outcome. Feedback from the employers and teaching faculties regarding their official and personal opinions were also collected and analyzed and further action taken. Meetings were held together by the departments and college council authorities regarding the feedback suggestions and trends and feasibility of implementing the suggestions for the betterment of the institution.

The measures are • The classrooms are well ventilated and lighted • If lights are need of CFLs are also used. • Lights and fans, computers are switched off immediately when not required. • Supervisors inspect to check the wastage should not run in uncoupled class rooms and laboratories. Use of Renewable Energy The college at present there is no renewable energy. The institution has been planned to install solar lighting system in the campus. Water Harvesting Rain water harvesting project is already functioning in the college. Two bore well have functioning for shortage ground water recharge. Effects for carbon neutrality Plantation of trees has been increased to sequester CO₂ emitted in the atmosphere. Plantation The college has planted more than 300 plants in the campus. All the faculty members and students actively participated in the plantation. NSS team also organized tree plantation every year with the support of various organizations and Hazardous Waste Management The institution uses very less quantity of chemicals for practical classes. Waste and expired chemicals are carefully disposed either by dissolving in water or by keeping separately in protecting sheets. E-Waste Management Electronic wastes like computer, office electronic equipment, refrigerators in the laboratories, are disposed depending upon their conditions. Effects are made to repair the computer and again it is used. If it is not possible for reuse it is hand over to the person for recycle, it will be dismantle.

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

Best Practices - I Teacher log book Goal: This help to improve the professional activities for implementation of teaching learning process in a systemic way. In addition to the class log book maintained by the each class in charges. Every teacher has to record the lesson taken on each hour in the class log book. It will help to know the transparency system of the academic activity of the college. The context Teachers log book is vital evident for the development of the educations system. The implementation of this system vested in the hands of HODs of the college. To improve the teaching learning process the log book maintaining is considered very important. In the initial stage the teacher are not interested to maintain the log books properly due to negligence. Then through counselling teachers are advised to maintain this practice in a systemic manner. More over this practice helps to know their activities in the academic year and it facilitates to prepare appraisal of each student in the academic performance. The practice All the faculty members are given log book at the beginning of the every semester. In the log book staff biodata - subject handled by each staff, syllabus, lesson plan, students name list are maintained. Marks scored in the examinations, attendance, staff activities are recorded in the log book. Every end of the week lesson plan details with taken protions are recorded by the staff members. The log book is verified by the HOD at the closing hour of the day. Every week department review meetings are conducted by the vice principal and the principal. Students performance are analyzed and decision taken for the improvement of the performance. Staff participation regarding seminar/ workshop attended are entered in the log book. In meeting HODs are contracted for suggestion if any to complete the syllabus test., etc., by analyzing the performance of the students and finally weak students list are finalized for special coaching classes. Evidence of Success This method has been successful to the faculty members to prepare the lesson plan and complete the syllabus within the stipulated period and at the same

time log book maintenance ensure that all the academic performances of the staff prepared and recorded. The following are the examples of evidence of success: 1) The syllabus completion is regularly monitored. Teachers know their responsibility and hundred percentage of syllabus completion is ensured. 2) Staff performance is recorded. Staff are encouraged to present paper in national/ international level/ publish books etc., 3). The slow learners get special focus after the analysis of their academic progress. 4) Teachers are encouraged to present paper and allows to attend refresher and orientation courses. 5) Problems are encountered and revised. i) Some staff members are forced to record their classes taken daily in the log book. ii) Method to maintain log book not in an uniform manner. iii) Not all the staff indulged in research activities. 6) To implement the teacher log book does not require resource. The college has to maintain printing and timely deliver of the book.

Best Practice-2 Higher Education to Rural Students Goal The aim of the institution is to enhance the higher education facility to the rural students those who are from socially and economically backward from the society. The institution is run by the group of philanthropists for service motive. Higher education is still accessible only to the urban students. Only few of rural people choose and opted for higher education. Most of the students are far away from the institution Huge amount of fees, lack of awareness are the big obstacles for them to carry out their higher education. Especially rural women students are not allowed to continue their studies after undergraduate courses.

This is mainly due to distance for traveling from their home places to educational institutions and lack of protection to them. The college goal is to offer the higher education to the rural people hence the management take concrete steps for implementation of new P.G courses and research courses to facilitate the unprivileged sections of the society. The practice The following activities are taken by the college to widen the access of higher education to the rural students. 1. The faculty from the various departments consults the undergraduate student's parents to specify the need of studying post graduate courses. 2. Career counselling classes are arranged to the students to doing research courses in our college. 3. The college deals state government rules learning reservation of seats. 4. The institution arranged scholarship facility from government and other agencies for economically weaker students to carry out their higher education without financial difficulty. 5. The college has follow uniform system to all students both for UG and PG course. This will facilitate equal treatment of all students irrespective of their community, financial status, etc., However some of the limitations are even we offer higher education to the rural people. We should follow government reservation system for research courses. College is self financing more hence it does not have huge economic resources. Evidence of success 1. The practice has been worked successfully with the student's parents for that reason, more number of students enrolled from UG and P.G. courses. 2. Career counseling help more number of our college students continue their research courses in our college.
